Subject: Dispatch of OSC Peter Stevenson Aero Pipeline Release

OSC Peter Stevenson has been dispatched to investigate a release of approximately 500 barrels of brine/oil/condensate into a unknown tributary of Lake Sakakawea. The incident was discovered earlier this morning by the RP and has since deployed boom and absorbent pad material downstream in the entry of the lake. The valve leak is secured and the RP and their emergency response contractors are on scene assessing the spill effects. For more information you can go to OSC web and pull up incident report # 1088376.
